

DOC-ORG: Docker, Org Mode, Latex

Marco Ieni

December 15, 2019

1 header

hello.

1.1 subheader

look how cute is this simple table:

one	two
1	2
3	4

2 some code

```
int main()
{
    printf("hello world\n");
}
```

3 lists

3.1 numerated

1. one
2. two
 - (a) sub-two
 - i. sub-sub-two
3. three

3.2 unnumbered

- One
 - Two
 - * Three
 - Four

3.2.1 trivia

Doc-org could mean a lot of things, such as:

- document - organized
- docker - org mode
- docile - organist

A team of 42 linguists is currently searching for the answer.

3.3 with description

element1 description for element one

element2 description for element two
