

## 1 Introduction

This example shows how references works.

## 2 Sections

You can add a reference to section 1.

## 3 Equations

You can refer to equation 1.

$$\phi = \frac{2\pi f D}{c} \tag{1}$$

## 4 Tables

Reference to 1. Caption is required for the reference to work properly.

Table 1: a nice table

Anchor	MAE
a1	6.871
a2	5.275
a3	5.406

## 5 Code

You can refer to code ??

```
int main()
{
    printf("hello world\n");
}
```
