

1 Introduction

This example shows how links and references works. Every link is clickable!

2 Sections

You can add a reference to section [1](#).

3 Equations

You can refer to equation [1](#).

$$\phi = \frac{2\pi f D}{c} \tag{1}$$

4 Tables

Reference to table [1](#). Caption is required for the reference to work properly.

Table 1: a nice table

Anchor	MAE
a1	6.871
a2	5.275
a3	5.406

5 items

1. one item
2. another item

Here we refer to item [2](#).

6 links

Visit the [official org mode website](#).

7 manual link

It's also possible to link directly any word or [any sentence](#) in you document.

If you read this text, you will get no information. Really? Is there no information?

For instance this sentence.
