1 Introduction

This example shows how links and references works. Every link is clickable!

2 Sections

You can add a reference to section 1.

3 Equations

You can refer to equation 1.

$$\phi = \frac{2\pi f D}{c} \tag{1}$$

4 Tables

Reference to table 1. Caption is required for the reference to work properly.

 $\begin{tabular}{lll} Table 1: & a nice table \\ \hline Anchor & MAE \\ \hline a1 & 6.871 \\ a2 & 5.275 \\ a3 & 5.406 \\ \hline \end{tabular}$

5 items

- 1. one item
- 2. another item

Here we refer to item 2.

6 links

Visit the official org mode website.

7 manual link

It's also possible to link directly any word or any sentence in you document. If you read this text, you will get no information. Really? Is there no information?

For instance this sentence.
